

# Newburgh Area Transportation & Land Use Study

## YOUR IDEAS COUNT!

Help guide transportation planning and growth in the greater Newburgh area

### Hands-on public design workshop

Wednesday, June 16th, 7:00 PM to 9:30 PM

Dan Leghorn Fire Company Community Room  
426 South Plank Road, Town of Newburgh, NY

**Don't miss this special, interactive planning session. Help envision transportation improvements and growth that protect community character and the environment, while providing long-term transportation options.**

- Learn about estimates and visualizations of future residential growth
- Provide input on how and where growth and transportation improvements should occur
- Hear about plans for improving local area bus service

Help us anticipate attendance: if you're planning on attending, please e-mail to [ProjectTeam@newburghareastudy.info](mailto:ProjectTeam@newburghareastudy.info), or call 845-855-7077.

#### Background:

The Newburgh Area Transportation and Land Use Study is looking at transportation, local transit, connectivity and development in north-eastern Orange County. The study will produce an overall assessment and multi-modal plan for transportation, integrated with local and regional land use planning policies, to enhance mobility while protecting quality of life and the environment. The Orange County Planning Department, on behalf of the Orange County Transportation Council, invites residents, landowners, businesses, local officials and others to participate in this forward-thinking public planning effort.

#### Directions from NYS Route 17K in Town of Newburgh:

North on County Road 23 (Rock Cut Rd.).  
Right onto Route 52 (South Plank Rd.).  
The firehouse is just east of the Lakeside Road intersection.
